Unleash Your Talent at B3 Insight: We're Data Driven, Dynamic, and Different

At B3 Insight, we're not just crunching numbers – we're transforming businesses with the power of data. Join our tight-knit team of passionate problem solvers and make a real impact, one insight at a time.

Who We Are

B3 Insight is a fast-growing data and analytics company where curiosity meets cutting-edge technology. We work with diverse clients, from innovative startups to some of the largest players on the planet, to unlock hidden potential in their data.

What we inject below the surface matters and at B3, we help customers manage this process in the most efficient manner possible.

What You'll Do

As a Senior Software Engineer [.NET Engineer / Full Stack Engineer], you'll be a key player in our data revolution. You'll:

- Craft elegant solutions using your 5+ years of experience building web applications, SaaS products, RESTful APIs, and user-friendly front-end experiences with JavaScript / SPA frameworks.
- Wrangle data with fluency in SQL, data modeling, and data flows.
- Master the Microsoft stack: C#, ASP.NET, .NET, and SQL are your playground (Blazor experience a plus).
- Collaborate with our brilliant team of data scientists, analysts, and developers to bring insights to life.
- Shape the future: We encourage innovative thinking and experimentation – your ideas can make a real difference.

Preferred Qualifications

- Know your way around the Microsoft Azure ecosystem.
- Have Python development and/or data science/machine learning experience.

What We Offer

- Competitive salary and benefits to fuel your data-driven dreams.
- A dynamic and collaborative environment where your voice is heard and your contributions matter.

- Cutting-edge tools and technologies to keep your skills sharp and your mind curious.
- The chance to make a tangible impact on businesses and the world around you.
